Subject: Two tax credit projects /rosemont at laureland and scyene

I apologize for missing your call. I am at the National league of Cities meeting in Indianapolis. I was calling in an effort to keep the waters calm as we work through these deals. I have expressed to you and the representatives of southwest housing that a three party master agreement is essential for a number of reasons. the CHDOs give us necessary political constituencies in support of DHA and these projects. second, the CHDCOs will provide social services beyond the level we have come to expect from SWHousing who have an excellent program. finally, I need to maintain a relationship between the CHDOs and SWHousing because of the availability of SWHousing resources to assist in addressing other related issues of economic development and comprehensive planning. I hope you will continue to support this tripartite arrangement.
Thanks don hill
