Subject: In the name of Allah the Compassionate the Merciful

By Allah I thank you for this easy and secure way because I have not thought of it Allah bless you

As for the answers to your questions?

Do you want to do it at the local level?

If the orders from my prince were to do it at the local level then I will execute and if I think that it is somewhat questionable I will discuss it until the truth is discerned although if I considered targeting locally I will not target any civilian or child or an older person who has had no hand in the aggression unless necessity makes it inevitable and success is from Allah the Almighty!!!!!!!!!!!!!!!!!!!!

Have you formulated an idea and are now waiting for the tools and the help?

Yes I have a number of ideas but I will not follow them until I learn the fundamentals of Islam so that I do it the right way Allah forbid it will be successful and correct one hundred percent and with consensus from the brothers who will participate (the opinion of the group) as the Messenger Allah's peace and prayers be upon him used to consult his companions .

Have you benefited in the past from the material found in the forums?

I certainly do not like to walk down a hypothetical road so when I receive the stuff (the tools) reading will help me however I will not benefit if I only read while my hands are empty there are of course some useful subjects but not all of them and of course I have benefited however it will be good when you ask and get an answer from the experienced and the experts

and

finally I would like to ask you a final question

How can I know that you don't work with intelligence ?

Because I have doubts sometimes but one should rely on Allah the Almighty and to consider the circumstances

Is there anyway that will assure my heart, and if I was wrong in my doubts may Allah forgive me

Your brother Aba-al-Ayyubi
