To:

Peace and Allah's mercy and blessings be on you

O Lord protect us and give us success in this blessed month over the enemy of the Islam and O Lord inflict horror in their hearts at our hands and bless our deeds and guide our throw and protect us from their eyes You are indeed the All-Seeing the Answerer of prayer the Powerful The Almighty Lord of the great throne

O Lord bless the messengers and praise and bless our master Muhammad Allah's blessing and peace be upon Him

My brother in Allah O the humble and the just brother may Allah grant you success always for your humbleness and may Allah prolong your life you and the Sheikh and whoever is with you on your path .Thank Allah for this harmony which is [UI] and the brotherly love in the obedience of Allah by Allah you are like a family and brothers more precious to me than my blood

Truly thank Allah be He exalted He perfected our path until now in complete safety to strike them in their homes and to beat the drums of the victory over their heads the illegitimate children and pig eaters I remind you my beloved brother my safety is myself when I chose this path so its end for all of us is the Highest Paradise for the little we offer to the Creator in return for this great gift there will not be greater than Allah for our protection until we meet Him with white faces for what we did in the perishing world that has no value except for the losers and apostates whose destiny is hellfire and evil refuge and they believe that they are winners so congratulations to them

And congratulations to us I ask Allah to accept our jihad and to forgive our sins and to destine for us from His generosity He is the Most Generous

So what I do now is little my dear brother and as you stated I am not venturing in a martyrdom operation as do my brothers who are higher in ranks than my ranks and they have the gardens of paradise for what they did for my moment did not come Allah willing and oh how I love to be destined for the martyrdom someday that no one knows except Allah to whom be ascribed all perfection and majesty or my falling in the hands of the enemy for of course martyrdom is more dear to me than that and there is nothing more honorable than that and but there are actions that I did not complete for the sake of Allah be He exalted in this world that is why I ask for the success the pleasure and the patience and the obedience and the work from behind the enemy ranks until Allah be He exalted destines my fate and my destiny and and [sic] there is no one more just

than my Lord He is the Just and the King

And the witness

Praise be to Him

And But now my brother I thank you for asking me another time about this and be advised and sure that there will not be any retreat one of these days from my side regarding my jihad because it is my path to the Allah be He exalted and there is none more dear to me than that except He the

Almighty and [UI] and [UI] and my mother and my father and you and my brothers and my friends so what I offer now I offer to the nation to the children who have been displaced and killed for no offence to those who lost their relatives and their children and their women and they were driven out of their residences by force and to those who sacrificed themselves and to those who were patient in the injustice and the unfairness and the torture and no one knows them but

Allah He is the All-Seeing

And we do not forget our true [UI] and our fathers and our forefathers in their sacrifices in the spread of the religion and its protection

And the defeat of the Crusaders so we are the message the end of the beginning and the removal of the apostate tyrant who persisted on us in the oppression and the killing and the deception and the trickery and destruction of the world behind Satan this is truly a global attack on the religion of Allah The One and the Only

The religion of our master Muhammad

The Islam

The Islam is a team

And the whole [UI] world is a team against the word of Allah is the greatest He is the One and The Only

So it is truly an international Jewish Crusade scheme that moves towards the destruction and the spread of the atheism and the ignorance on this world and ignorance is nothing but ignorance of the religion ignorance of the obedience and the spread of sins and the destruction of the Islamic religion

All that I will say is a lot a lot already I saw with my own eyes and thank Allah be He exalted for joining us once again

So do you believe that all of that is a coincidence

No by Allah that was facilitated and designed on a path from Allah be He exalted may this path be long with the protection of Allah be He exalted by His power for us and our victory over them and spreading the horror in their hearts and the victory of our commander the Sheikh may Allah bless him and may Allah prolong his life

I already [UI] one night of Ramadan nights in the same day in which you sent your message I saw a wolf attacking me when I descended from the house of a relative who is dear to me and I already left my relatives there and descended alone to the road to obtain arms I did not know where it came from my father or I do not know and already the wolf attacked me with force with force and already bit my hand and I was still able to fight there is no god but Allah and but thank Allah at the end already I won and killed it and as far as I believe that the wolf is a deceiving malicious enemy and these are my actions that Allah will give me success by them it is the work that I do now

If my vision was true then it is the success

And since approximately a week already I saw a dream or a vision I did not know what their meanings

And although I did not see visions like this *[sic]* since a specific period

I already saw people great many people praise Allah it is hunger and they are frail I did not know

they are sick or tired coming out of a sickness or a war and but what stunned me were the dates abundant dates around them like rivers and but they were not eating I did not know the significance of the dates blessed trees rivers of dates around them small children and elderly or small and tired people and but everything was at a standstill they laid down like flies and the dates are around them like rivers and Allah knows best may it be a good tiding

And now my dear brother I took too long with you and but Allah willing I am ready and but the date is a beautiful idea that it is from you not from me and however if it is after the date that you specified it will be wonderful and success is on Allah and you did not inform me about what I informed you about the security that is at the gates because the garage is under the building directly so we will bring it to the bottom in its entirety and but to enter the building requires a simple subscription I do not possess the papers to obtain that did you talk with the brother Hussein ? and consulted him about that or will I perform the penetration in my way ? And it is possible also that I wait outside until a person enters and opens the gate and I enter after him

Or I can enter and park the car near the gate

And however the operation Allah willing will be blessed and this will not be an obstacle because I will resolve it if there is not a way there for the subscription as I informed you and but there will be a change in the time of the attack

Because when I truly park the blessed car the duration between my parking and my leaving the car should be small because I truly want the execution before someone sees it that it is not parked in the proper place and the discovery takes place and the time between my leaving the car and my exiting from it should be 5 minutes to seven minutes for the cracking if you understood what I mean and this plot is very successful and does not need anything until the time of the execution and I will have exited from the place in less than seven minutes and the departure

Now my dear brother advise me and counsel me willingly

And Allah willing after the victory in a period of time if Allah destines to us a smashing victory and I was still free my wish is to be one of the arms of the Sheikh close to you I like to be of the members of the commander's forces that march side-by-side with him and the execution of the commands for the sake of Allah and the confrontation of the enemy face-to-face and at that time I am able to produce a video about the operation with the commander that I am one of the executors of the blessed operation and it will be a pride for me and a slap on their face how I penetrated behind their ranks with success and superiority if there is not a misstep in that

And thanks Allah be He exalted always I wait for a reply from you

There is no god but Allah Mohammed is Allah's Messenger

al-Ayyubi
